

Remarks

Claim 1 is currently pending. Claim 1 has been amended, and claims 2-34 have been cancelled without prejudice.

The examiner has objected to the abstract because it must briefly describe the air moving device. The abstract has been amended accordingly. Therefore, the objection to the abstract has been overcome.

The examiner has objected to Figs. 3A, 3B and 4-7C as being too dark. The drawings have been lightened and replacement sheets are attached hereto. The drawing objection is hereby overcome.

The examiner has objected to the drawings as not showing the insulative film as claimed in claim 2. Claim 2 has been cancelled and the drawing objection is hereby overcome.

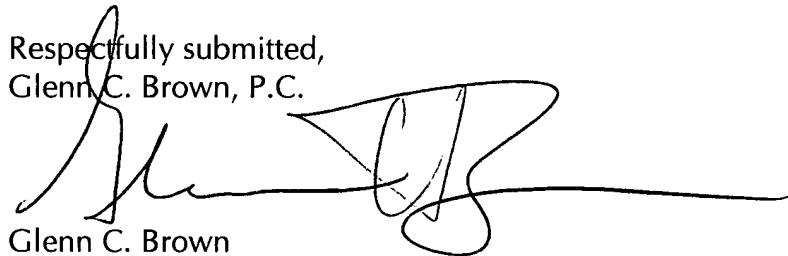

The specification has been objected to as not including the insulative film as claimed in claim 2. Claim 2 has been cancelled and the objection to the specification is hereby overcome.

Applicant gratefully acknowledges the examiner's allowance of claim 33 if rewritten in independent form, including all of the limitations of the base claim and any intervening claims. Claim 1 has been rewritten to include the limitations of claim 33 and any intervening claims. Thus, the rejections under 35 U.S.C 112, 35 U.S.C. 102 and 35 U.S.C 103(a) have been overcome and claim 1 is allowable.

CONCLUSION

Applicant respectfully submits that each of the examiner's rejections has been overcome, and that this application is in condition for allowance. Such is respectfully requested. The examiner is invited to call the undersigned if doing so would be of benefit in advancing prosecution of the application.

Respectfully submitted,
Glenn C. Brown, P.C.
